1. This program is limited to dryland (non-irrigated) acres planted with D&PL-brand cotton varieties which contain Monsanto Cotton Technology.
2. If due to drought you harvest less than 150 lbs. of lint/acre, D&PL will credit your seed supplier for 50% of the units used to plant the acres that produced less than 150 lbs. of lint/acre. (For the purposes of this program, an acre is defined as 43,560 contiguous square feet of land area.)
3. Credit from D&PL will be for SEED only. You will be notified by letter from D&PL after credit has been issued to your supplier.
4. You are responsible for determining if technology or seed treatment refunds are available from their respective manufacturers.
5. **You must notify D&PL of potential claim fields and acreage prior to harvest or by October 1, 2007 (whichever is earlier).** D&PL reserves the right to inspect all claimed acres while the crop is still in the field and further reserves the right to reject without settlement all claims for which potential claim notification was not received by October 1, 2007.
6. **The deadline to submit a final claim under this program is January 15, 2008.**
7. Claims must include your Monsanto Technology Agreement Number and proof-of-purchase of the D&PL-brand seed used to plant the claimed acres.
8. **Claims must include Federal Crop Insurance documentation which verifies drought as the reason for the claimed acres yielding less than 150 lbs. of lint/acre.** Acres not harvested or that experience yield reductions attributable to wind, hail, flood, disease, pests, or any other reason(s) are not eligible for settlement under this program.
9. Final claims may only be submitted by a D&PL representative on an original, pre-numbered D&PL Dryland Protection claim form. Claim forms and all supporting documentation **MUST** be submitted using the same name and Monsanto Technology Agreement number as when the seed was purchased. **Incomplete claims will be rejected.**
10. This program covers only the **final planting** of the season.
